Tuesday, January 26th @10am - 11am

“Insider Secrets” to HOW hackers are getting in, and WHY - speaker Terry Cutler

This particular session will show attendees a “behind the scenes look” at how hackers harvest as much information on you before launching a targeted attack.

At the end of this talk, the audience will be more alert as to what they’re posting online and how it can be used against them.

Topics include:

- The problem with modern day security
- Threat agents
- Essential terminology
- The phases hackers use to target you
- Social Engineering awareness
- Real-World hacking demonstration
- Defensive tools
- Much more.....

Terry Cutler’s Bio

Terry Cutler is the CEO of Cyology Labs and the author of the #1 Amazon Best Selling book "Insider Secrets to Internet Safety: Advice from a Professional Hacker. As an international award-winning cybersecurity expert and a Government cleared Ethical Hacker, Terry is known for his top-level consulting services, extensive coaching products, multiple TV appearances, and live public speaking events.

For more than 20 years, he's advised some of Canada's largest companies on internal and external security penetration prevention and remedies. As an educator, Terry's effective online comprehensive learning program, Internet Safety University (www.InternetSafetyUniversity.com), attracts more than 30,000 students from 150 countries. Developed in 2013, ISU focuses on cyber-crime, spying, security failures, Internet scams, and social networking dangers that families and individuals face every day.

In 2017, Terry was humbled after being awarded the 2017 Cybersecurity Educator of the year award; he followed that by being named to IFSEC Global's Top 20 Most Influential People in Cybersecurity for 2018, 2019 and 2020, and then, in the same year, named to the CISO Platform Global TOP 100 List.
