

Technology Consultants, Inc. has been a leading technology service company in Vermont since 1986.

Our focus on integrating automation for the law firm has provided us with a unique partnership with the Vermont Bar Association and its members.

We are committed to providing IT consulting, IT security services to prevent Ransomware, and 24x7x365 IT support. The demands on a lawyer are enough and adding any IT problems does not help. Making sure your and your client's information is protected

is critical. Our proactive support can provide you the peace of mind you need, so please talk to us and we can tell you how we can help you.
