

## WORKING IN TANDEM TO PAVE NEW PATHS FORWARD.

At Tandem Workforce Collaborative, our mission is to foster meaningful employment connections through strength-focused rehabilitation services.

We collaborate side-by-side with each individual on their return-to-work journey by recognizing their capabilities and matching them with inclusive workplaces where they can thrive.

Our approach provides the tools and support to empower injured workers to reach new summits of professional success. Though the terrain may be challenging at times, we motivate and encourage each other upwards.
